Please join us either day so that we can update you on our current planning efforts. It will be a casual event and we will have our planners available to talk with you and answer your questions.

This is an opportunity for you and the planners to exchange information directly with one another while enjoying refreshments in a very interesting setting.

Information will be available regarding airport administration, airport history, the regional and national importance of the airport, the current Phase 1 master planning process, national aviation trends, development considerations, and local economic impact and development. Parking will be available in front of Priester Aviation off S. Wolf Road.
