REPORT ON MEETING WITH CITY ENGINEER —Jim Johnson and Steven Cutaia on June 27,2013.

Mark Saulka reviewed the specific areas discussed: drain tile lines across the rear of the yards on Willow Road and and Lake Claire issues. Jim Johnson stated that he discussed the issue (Willow Rd) with Jim O'Neill and was informed that the line is in complete disrepair and non-functional . Jim Johnson will recommend that we proceed with engineering a new system, budget permitting. Mark also stated that there has been discussion about running a drain line southeast down Claire Lane and terminate at the retention pond. He will be meeting with Steve Skiber (Building and Zoning Director) to discuss target dates for completion of the drainage system in Lake Claire. Mark will also have a follow-up meeting with the City Engineer.

The meeting was adjourned at 4:00pm. The next meeting will be held at City Hall on September 10, 2013 at 3:00pm.
